

# RESEARCH STUDIES

**Do you have a neurological condition?**  
*Or are you the caregiver for someone with a neurological condition?*

The Center for Rehabilitation Outcomes Research is conducting a study to identify issues that are important to the quality of care for rehabilitation patients.

If you agree to participate, you will:

- Come to RIC or Alexian Rehabilitation Hospital for a focus group lasting 1.5-2 hours
- Give your opinions about how to measure the quality of rehabilitation care
- Fill out a brief demographic survey

Participants will receive \$25 for focus group completion.

For information, please contact Arielle Goldsmith at 312-238-0714 or [agoldsmith@ric.org](mailto:agoldsmith@ric.org).

Participants must meet the following criteria:

- Adults (18 and over)
- Must be able to speak and understand English
- Have – or care for someone with – a neurological condition such as stroke, spinal cord injury, traumatic brain injury, multiple sclerosis, Parkinson’s disease, or other neurological disorder
