

# If you are living with MS, tell us your VIEWS.

If you have MS consider participating in  
the VIEWS study.

Tell us your views and opinions on exercise & what  
information on exercise you seek from your  
healthcare provider.

The VIEWS study is for people  
who:

- Are aged over 18 years
- Have a definite diagnosis of MS

Participation will include:

- A neurological examination
- An interview on your views, experiences and opinion
- Completion of questionnaires related to exercise
