

Research Opportunity

University of Illinois researchers invite you to participate in a voluntary study on the effect of balance and walking exercise on cognition and mobility in people with multiple sclerosis

BENEFITS OF PARTICIPATION:

- Contribute to ongoing research on walking and cognition
- Have your balance, walking and fall risk evaluated
- Participate in a free exercise program

COMPENSATION:

- Receive up to \$180 for participation

ELIGIBILITY:

- Diagnosis of multiple sclerosis
- Difficulties with walking and/or thinking

For more information, contact the Motor Control Research Laboratory by phone (217-244-7006) or email (StopFallsMS@illinois.edu).
