**NATIONAL MULTIPLE SCLEROSIS SOCIETY
Fellowship Stipend Scales**

The current annual salary for postdoctoral associates and fellows is determined by the number of FULL years of relevant postdoctoral experience at the time of application. The amount of the salary must relate to the applicant's professional status and previous training and experience. Relevant experience may include research experience, internship, or residency. No departure from the established salary schedule will be allowed.

Postdoctoral Research Associates Listed on Another PI's Application

Postdoctoral associates supported through another PI's research application should use the salary scale chart below. This applies to the following funding programs: Research Grants, Collaborative MS Research Center Awards, Harry Weaver Scholar Awards, Career Transition Fellowships (non-PI fellow), and Healthcare Delivery and Policy Research Contracts.

Postdoctoral Research Associates
